Install

Select an appropriate mounting location and install the bracket.

Choose a Location

For optimal viewing results, the bracket should be mounted in a location that places the camera above the plane of the room's conference table.

Choose a Bracket

The wall mount kit comes with two brackets to accommodate a variety of mounting locations. The smaller bracket allows the back of the camera to be placed 2.00 in. to 3.50 in. (51 mm to 89 mm) off the wall while the larger bracket allows the back of the camera to be placed 3.50 in. to 5.00 in. (89 mm to 127 mm) off the wall.

NOTES:

- The camera can be mounted on top of or under the bracket.
- When using the CCS-CAM-USB-F-100, the smaller bracket allows the back of the camera to be placed 2.25 in. to 3.00 in. (57 mm to 76 mm) off the wall while the larger bracket allows the back of the camera to be placed 3.75 in. to 4.55 in. (95 mm to 116 mm) off the wall.

Connect

Thread the cable that is included with the camera through the notch in the bracket and connect it to the camera's USB port and a USB device. Use the included tie wraps to secure excess cable.

NOTE: On the CCS-CAM-USB-F-100, the cable is attached to the camera.
